

TECHNIDATA BCS

BUSINESS COMPLIANCE SERVICES

Product Safety · Dangerous Goods
Industrial Health · Environmental Protection

BUSINESS

Your business is our passion.

Product safety and dangerous goods management, industrial health and safety, and environmental protection are all integral elements of your business processes.

We take on tasks where you lack the resources, we support your specialists, and we help you to integrate all necessary processes into your operations.

COMPLIANCE

removes risk.

Product safety, handling dangerous goods, health and safety, and environmental protection – all are strictly regulated, meaning that the more international your business is, the more regulations you need to comply with.

We help you to comply in total with regulations and ensure you continue to do so. Thanks to the skills of our experts, you can leave the routine tasks to us and instead concentrate on moving your company forward.

SERVICES

for you:

- BCS for Product Safety
producing safety data sheets, supplying label information, registering products, compliance consulting services
- BCS for Dangerous Goods

OUR CUSTOMERS

Our services take into account sector- and product-specific requirements as well as national and international regulations. This approach enables us to offer a service which is equally suitable for SMEs and multinational groups. Our services benefit not only the manufacturing industry and trade, but also service providers and public-sector customers. Approximately 300 companies draw on our expertise, and many of these have long-standing ties with us.

OUR SKILLS

Since 1985, we have been providing companies with know-how in product safety, dangerous goods management, industrial health and safety, and environmental protection.

The commitment shown by our team – comprising experts from product safety, industrial health and safety, chemistry, toxicology and IT – lays the basis for the quality and diversity of our services. Our combination of expert knowledge and IT skills ensures your work is supported by efficient software tools.

Our experience and know-how are at your complete disposal.

OUR PHILOSOPHY

We operate under the maxim “Business is our passion”, which is founded on our

- **Expertise**
Our employees can deliver comprehensive know-how in their specific fields.
- **Innovative spirit**
Since we combine expertise with cutting-edge information technology, you are always kept up to date in every respect. Your employees get direct access to the documents and data we produce, retrieving this through their own applications, and thus helping you to save time and react quickly to new regulations.
- **Best practices**
TechniData BCS solutions offer you a comprehensive and scalable range of services, enabling you to meet national and international compliance regulations.

The advantages of Business Compliance Services at a glance:

- **Compliance**
We advise you on all issues relating to compliance. This gives you more time for the things that matter and enable you to release employees from routine tasks and reduce risks.
- **Cost-effectiveness**
We employ standardized back-office solutions and keep your infrastructure up to date with information on new laws, phrases and legislation. Our services offer exceptional cost-effectiveness thanks to the resulting synergies. You benefit from reduced costs.
- **Flexibility**
Product safety departments often have to cope with very high workloads resulting from amendments to regulations, new products, company acquisitions, and expansion into new markets. We help ensure full compliance and long-term adherence to regulations and directives.
- **Scalability**
Whether you need help in drawing up safety data sheets for the North American market or want to optimize your entire product safety process, we are happy to tailor our services to your precise needs.
